

A large orange excavator is shown working on a massive pile of garbage at a landfill. The excavator is positioned on the left side of the frame, with its arm and bucket extended over the waste. The ground is covered in a thick layer of trash, including plastic, paper, and other debris. The background shows a hazy, overcast sky.

one disposable diaper takes up to
500 years to biodegrade.

4,000,000 enter landfills each
day in Canada and
50,000,000 a **day** the USA

there has to be a **better way...**
