

International Material Recovery

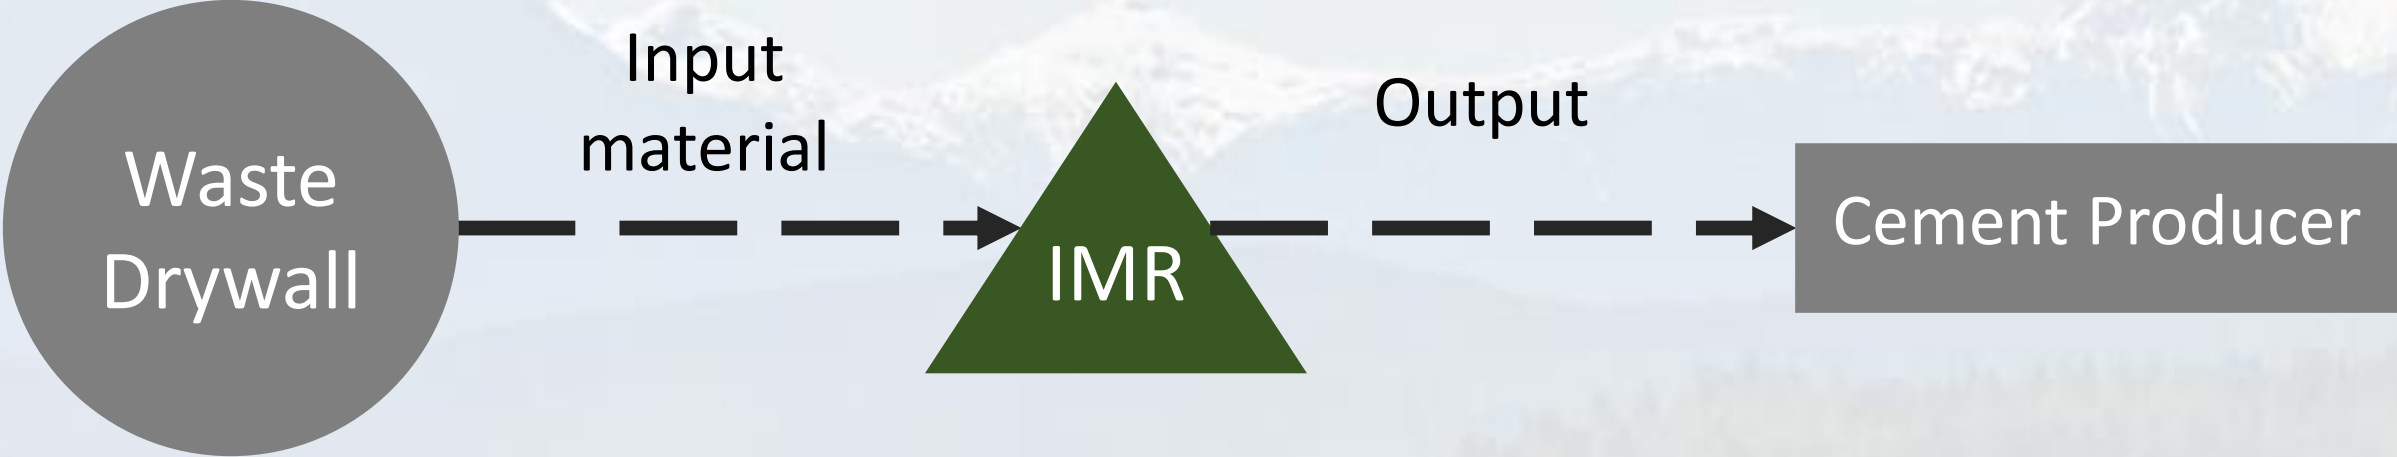

Changing how the World Manufactures Cement

Sam Grill, CEO | International Material Recovery | (778) 938-9211 | sam@imrcanada.ca

“IMR produces alternative gypsum from recycled drywall for cement manufactures who need low cost and environmentally responsible input materials. Unlike our competitors, IMR Gypsum is specifically designed to meet the particular needs of the cement industry”

IMR Value Chain – A New Frontier for Waste Drywall

Current prospects

- Track record of growth
- History as good employer
- Growth opportunities

Initial prospects of developing entirely new market

- Default is “No”
- Fear of failure
- Risk adverse
- Little upside

Innovate

1. Prove the market exists
2. Prove financial viability
3. Build and nurture relationships
4. Stay resilient

Thank you
